Job Requirements

Article 3:

New sites across
London

It has been a crazy few months! Unfortunately, due to the COVID-19 Pandemic, the newsletter has been delayed, however do read on to find out what we have been up too in the last few months

Have you followed us on social media? If not check out the pages below:

 @krmsltd

 @krmsecurityservices

 krm security services ltd

Did you know we have now attained ISO9001 accreditation? This highlights how well our management systems work to deliver a top class service to our clients!

KRM Security Services is proud to announce that we have in the last three months earned Constructionline Silver, Constructionline Gold and Acclaim Accreditation, which highlights our commitment towards upholding and improving Health and Safety within the security industry.

Coronavirus

The unexpected twist to our daily lives

The COVID-19 Pandemic has shaken businesses and people all around the world. Nearing a Million deaths, with 40,000+ in the United Kingdom, it is a deadly threat. The nature of jobs in the security industry mean that we are more exposed to this virus than otherwise, as we have more interactions with people everywhere. This has lead to us having to be extra careful. We have issued multiple memorandums, put plenty of information on our website, issued face masks and face shields, organized plenty of hand sanitizer to be available and requested plenty of signage to be made available informing people about government advice.

We are pleased to say that despite this, our control room has worked hard to ensure that all sites have been manned as required.

We do suggest that everyone installs the NHS Test and Trace app to ensure that they are informed if they come into contact with someone who has contracted coronavirus.

Job Requirements

KRM Security Services would like to commend all our officers on working well throughout the pandemic. However, just some things for you all to remember:

All officers working in out of hours are not allowed to use lifts, as this is a serious breach of health and safety

All Officers working in out of hours are meant to perform hourly check calls using our CASM system to comply with Lone Working Policies

All officers are required to perform the correct amount of patrols as requested during their shifts.

Congratulations to our Employee of the Month for August 2020, Toqeer Ahmad. He has demonstrated exceptional skills and has taken initiative in helping new managing agents take over his site. Also, Congratulations to our Employee of the Month for September 2020, Nihal Zaidi. Nihal has performed well at his site, earning a place on their Wall of Fame and a certificate presented by the Project Director.

An insight into next edition...

Check out our next edition to see further development of our community outreach program, our SIA/ACS status and more! Due December 2020

New Appointments

We have had new staff join our team at KRM Security Services over the last few months. We gladly welcome them and wish them all the best of luck in their KRM careers.

Emma Nicholson

We would like to welcome our new relief officer, Emma. She brings a wealth of experience from the tourism industry as well as her cheerful character and we are sure she will work hard to ensure that sites are well maintained whilst she is relieving other officers.

Anees Ur Rehman

An exceptionally talented security officer with vast experience in the industry joins us again working at one of our most high-profile sites, in Mayfair London. We are excited to see the sophistication he will bring to the role and in maintaining an excellent working relationship with one of our closest clients.

SIA ACS

Following a remote audit in April 2020, KRM Security Services gained ISO9001 approval and passed the first stage of the SIA/ACS audit with flying colours. We scored excellently and our assessor was incredibly pleased with our service and passed us with no Non-Conformities. We are now awaiting site visits, due 2nd October 2020. Following this, we will be part of the ACS. We will be sending out memos about this date if your site is due to be visited.

New Sites

KRM Security is proud to announce that we have begun work on a new site across London. We are working with our wonderful client Wooldridge Demolition Ltd. We have been working with Wooldridge for the last few years and have worked with them across many different sites. Now, we embark with them at their latest project, in Finsbury Park, Hackney, North London, just a hop away from Finsbury Park.

We are also very pleased to announce that we have begun work with a new client. KRM have begun working with Lawson & Partners, at one of our sites. We have also begun working with Best Gapp & Cassells. We are very optimistic in what this could bring for us in the future.
