KRM Security Services
Achieves ACS Status

Article 3:

New sites across
The UK

Another day, another lockdown. But worry not, KRM Security Services has been operating throughout the lockdown period and has achieved some remarkable things...

Have you followed us on social media? If not check out the pages below:

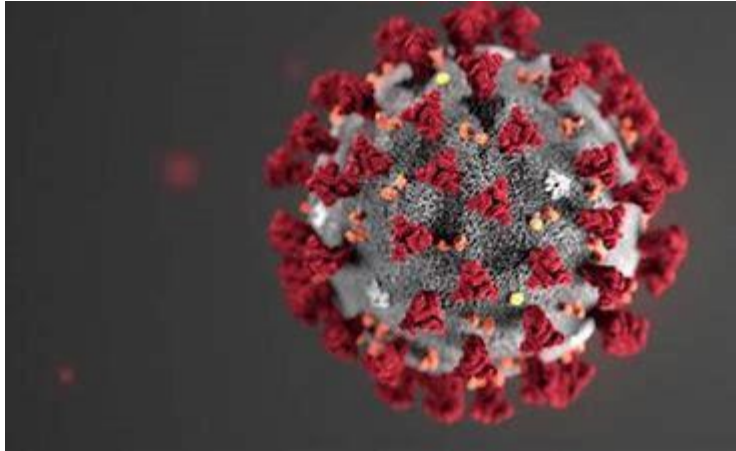

- @krmsltd
- @krmsecurityservices
- krm security services ltd

Did you know that we have been working in partnership with our CASM (Computer Aided Security Management) system provider for over a year now? In that time, we have performed 10's of 1000's of patrols, and trained over 50 staff on this software

KRM Security Services is super proud to announce that in the last three months we have achieved a further two accreditations, CHAS and SIA ACS, bringing our total certifications up to 11, making us one of the most decorated private security firms

Second Lockdown

It's not over just yet...

In August, we thought we had overcome the worst of the COVID-19 pandemic. As a result, restrictions were lifted. However, complacency took over and as a result, the R number across the United Kingdom quickly began to rise. Following this, as of 5th November 2020, the UK entered a second national lockdown, until 2nd December 2020. As a result, many offices, shop's and other businesses quickly shutdown. As a security company however, we have remained fully operational throughout the second lockdown. Our operations team and control room have worked hard to ensure that all sites have been manned as required, and our back office teams have been working hard to ensure we are still compliant with all regulations. During this difficult period, we have actually managed to begin provisions at two new sites. We have sent out numerous memorandums to our staff to ensure that they are all kept safe and healthy.

We do suggest that everyone installs the NHS Test and Trace app to ensure that they are informed if they come into contact with someone who has contracted coronavirus.

Security Industry Authority Approved Contractor Scheme

KRM Security Services is super proud to announce, that after several thorough auditing procedures, and months of disruption due to the COVID-19 pandemic, we have finally achieved and been awarded with the Security Industry Authority's Approved Contractor Status. This means we are one of the top security companies in the United Kingdom, guaranteed by the governments department of private security practice. This is a commendable achievement, and we would like to thank our extremely dedicated management team, all of whom made this possible. Their hard work and determination throughout the last twelve months mean's we have reached this incredible milestone. We would also like to thank our wonderful security staff, without who's cooperation this would not have been possible.

Congratulations to our Employee of the Months for October and November:

October: Sohail Zafar- one of our longest serving employees, Sohail has always been a pleasure to work with, and his professional ability is second to none. This month we received wonderful comments on Sohail, thus earning him the EotM for October.

November: Abeer Mohammad- Abeer, a member of our management team, was recently nominated for the Benelux OSPA awards and managed to secure --- place, thus earning him the EotM for November.

Benelux OSPA's

In November, KRM Security Services were absolutely delighted to hear that Abeer Mohammad, our Contracts Manager, had been shortlisted as a finalist for the Benelux OSPA's (Outstanding Performance in Security Awards). This was an incredible achievement, and we could not be more proud that one of our key staff had been shortlisted. The awards ceremony were held on 24th November 2020, and Abeer managed too earn a respectable second place in the Customer Services Initiative Category.

We could not be more delighted, and congratulate Abeer on his commendable achievement. We are proud to be made up of skilled and talented staff, and to have their achievements recognized is brilliant.

New Sites

KRM Security is thrilled to announce that we have expanded!!

We have begun security provisions at two new sites across the United Kingdom, expanding our service delivery to regions outside of London. We have begun providing security at a new site in Basingstoke as well as a new site in Borehamwood, all building on our existing relationships with our clients.

We are also very pleased to announce that in the last quarter, we have quoted for over £2Million worth of new business, and we are excited to see what the coming few months will bring.
